## AGENDA ITEMS / MINUTES>>>

1. **Assessment Widget Updates – For most items, there is not a due date anymore. How to update?**
  - a. Currently in the widget the red “X” means that it was never done and missing from the chart. A green check mark means it was done within the time frame. For most forms, Avatar is comparing a specific due date to the date the assessment was last completed, but for many forms currently (CalAIM) there is no longer a due date, and thus items should be listed only with the last date the item was completed.
  - b. Needed updates identified from prior meetings:
    - i. Add the new CalAIM assessment, using “last recorded date.”
    - ii. Psychosocial Assessment SC needs to be listed by last recorded date. (How is it currently set up?)
    - iii. Most other items also should be noted by last recorded date (is this the submit date?), except for a few items that still have a definitive due date, such as the CANS/ANSA. what about the SUD treatment plan?
    - iv. Possibly add the screening tool and ASAM. Dave will look into this.
    - v. Drop the color coding in the widget which is no longer needed for most items, because there is no longer a specific due date.
  - c. Action item: Dave will double check to see what the cutoff age is for the Adult versus Adolescent ALOC. Is it age 18?
  - d. Action item: Vince- Children’s would like PSC 35 assessment added into the widget, there is a date submitted for the PSC 35?
  - e. Discussion of new DMC-ODS “care plan.” We need more information about this item. for SUDs that has time frames.
  - f. **What other items need tracking in the widget?**

### Parking Lot

1. (Dave) New Managed Care Authorization form & report - Some services require authorizations; this form would be used to authorize times of service. Report includes pre-auth for EDC, Telos, Casa Pacific. Need to add authorization for TBS, ICC, IHBS, SUDs Residential (RTARs), inpatient stays to this as well. Still in UAT testing. Discussion from last meeting: Follow up for Dylan-will this report send reminders in avatar when authorization is due? Meg from last meeting-service authorization requests and presumptive transfer would be great to add to this report as well as psych testing & eating disorder referrals eventually would be great to add.

### CalAIM Overview and recap

1. CalAIM has ushered major regulatory changes to the California Medi-Cal system.
2. CalAIM is designed to streamline documentation and auditing practices by focusing on Fraud Waste & Abuse (FWA) to alleviate the excessive administrative burden and focus more on clinical best practice.
3. CalAIM employs a person-centered approach to improve access and coordination among the delivery systems.
4. Minor documentation infractions resulting in recoupments will no longer be deemed priority through the lens of FWA.
5. With CalAIM, providers can bill for legitimate collaboration of staff members in the same agency who hold different roles for the same client. This has been an area of lost revenue and staff frustration.
