

Avatar Process Improvement Meeting Agenda

Meeting Date

Friday, 8/24/2018

9:00-10:00 AM, 1400 Emeline, 2nd Floor, Conference Room 207

Meeting identity and mission	Inclusive, collaborative, focused, agenda driven, <u>Continued Improvement Process</u> to meet new state and federal requirements, improve client care and staff experience. This group gives us the opportunity to: Share our voice and needs to impact policy, create and modify forms, reports and queries. Also requires our commitment to: bring information back to our respective groups, gather opinion and test current projects to ensure they meet our needs, as well as share the finalized recommendations back with the staff we represent.		
Agenda Items	Staff Area	Notes	
REMINDER: How to get to UAT to test the work we do in this meeting		- Ask for help from your help desk, who will guide you to create a shortcut pointing to: https://santacruzuat.netmartcloud.com	When testing widgets, remember to "Reload Home View", so the new widgets are visible.
1) CANS ANSA	MH Staff	The meeting will review detailed recommendation for changes to the CANS 6-20 forms including state requirements.	<p>The goal is to capture state required items (the initial 50 and the additional 12), <u>plus</u> other clinically significant items that can inform our treatment planning process and to capture data on items on which we can make an impact, <u>while</u> attempting to streamline and eliminate items without added value.</p> <p>Reviewed CANS 6-20 recommendations pasted at the bottom of this document. Approved all listed requests with exception of 3 items highlighted in yellow below. Recommendations will be given to IT to implement COB next Friday, August 31st.</p> <p>Feedback and changes to these recommendations will NOT be accepted after Next Friday. In this case silence means approval, please take a moment to review information below so your ideas/request can be heard.</p> <p>1) Employment Module:</p> <p style="margin-left: 20px;">a. CANS committee recommended to disable this module, however it may be contractually required with Volunteer Center. Bill McCabe will confirm and report back next Friday if we will proceed to Disable or recommend to Enable this module when "Employment/Job Functioning" has a value of 1,2 or 3. There is agreement that we will no longer require this module.</p> <p>2) Interpersonal Problems (under Mental Health/Behavioral and Emotional needs):</p> <p style="margin-left: 20px;">a. CANS committee recommended to disable this item. We discussed that it might be useful to require. All staff will research what this item applies to, we will discuss and decide next Friday.</p> <p>3) Exploitation (under Risk Behaviors):</p> <p style="margin-left: 20px;">a. CANS committee recommended to require this item. We discussed that it is useful if this relates to client as victim, but not as perpetrator. All staff will research, we will discuss and decide next Friday.</p>

See detailed recommendations, annotated field by field at the end of this document starting on page 3.

2) Last Assessment Widget

All staff

Review changes to the widget from 8/17/18 to improve performance. CSI and CalOMS dates instead of counters.

Future and Pending Agenda Items

- Client Info Widget: Should we add a widget to quickly see key information for a client like: Name, Age, Address, Phone number?
- Brief ASAM form in Avatar – Access to services workflow
- Episode Closings: Analyze and recommend workflows for closing episodes, including what tools are needed for support
- Network Adequacy follow up to additional items needed
- Caseload Report changes - Diagnoses (dates and clinician), ASAM information
- Pending notes report
- Discuss ROI in onset of services form, (ability to click on the boxes)
