

# Avatar Process Improvement meeting 2/21/20

Last edited: Just now

## Attendance

---

In person: Eli Chance, Kristen Claassen, Linda Cosio, David Chicoine, Bill McCabe, Cybele Lolley, Lisa Gutierrez Wang, Barbara Lehman, Adriana bare

Remotely: Amber Williams, Grace Saldivar-Napoles

## CANS - ANSA discussion

---

We reviewed the list of fields that the committee for ANSA is suggesting to disable, refer to "ANSA - fields to remove 2.21.20.xlsx" file uploaded to the CANS and ANSA changes channel under the Avatar Process Improvement Team.

We also reviewed the other file uploaded in that area to determine the remaining fields (ANSA full form). Including some items that require follow up and will be discussed again next week.

The intention is to also identify which fields will "carry forward" at time of update for all 3 age levels.

## Updates

---

NOABD- QI team met and took a look at the Monterey form, they are organizing them and review further

System Message Pop up : We have the possibility of changing a setting that will limit system message pop-ups while you're logged in. Staff need to gather feedback from users in their area to figure out users preference, beyond the small group of meeting attendants. A detailed explanation will be available with a request to vote in the conversation thread. We will discuss this again in future

## Next Week

---

Continue discussing the ANSA form, review pending items and discuss next steps for the "carry forward at update" request
